

Lamp Led-E10 series 276

The 276 series is a low-power led lamp socket E10 for use in lighting for amusement park.

The lamp is steeped in high quality polyurethane resin, UV-resistant, with high degree of protection and dielectric for voltage insulation.

This characteristic makes it suitable for installation in cabochon for amusement park where condensation may form for the change in temperature or rain.

The lamp cannot be used without a cover.

5 LEDs are mounted at the top and 3 LEDs at the bottom, LEDs 3228 format, 3020 or 3014 if according to 120° angle with the colors with current of 20 mA.

Technical characteristics:

- Dimensions lamp with box: Ø 27 mm x height 19 mm about with bulb screw base;
- lamp power: 50 ÷ 60 Hz 24 VAC or 60VAC +/-5%;
- Socket lamp: E10;
- current led: 2 x 20mA if 24VAC and 1x20mA if 60VAC;
- lamp power: 1W for 24VAC/1, 2W for 60VAC;
- operating temperature: -10/+50° C;
- Protective resin; resin polyurethane anti UV;
- led colors: cool white 10,000 K, warm white 3000° K ,amber, red, green, blue, Fuchsia;
- brightness white: ~ 25lm;
- CRI: 3000° K White = >80;
- led brand: white, red and amber Osram, Fuchsia Ledtech, green and blue Würth;
- Optional: 12VDC

CE Product manufactured in Italy
